Wikibooks is a useful resource if you're curious about a subject, but you couldn't reference it in academic work. It's also worth noting that although Wikibooks' editors are sharp-eyed, some less scrupulous contributors may plagiarize copyright-protected work by other authors. Some recipes, for example, appear to be paraphrased from well-known chefs.

TV Buying Guide | Costco

However despite TV companies trying to make it a big deal, TV viewers weren't taking the bait and no new models support 3D. Most 2016 and some 2017 TV models are 3D-compatible. If you're looking for a 3D TV we suggest you look for a passive system (rather than active) because the glasses are lighter, cheaper and they work just as well.
